Polipak adopted three European bison from the Poznan New Zoo

Pomiłka, Postka and Poskoczka - these are European bison from Poznan Zoo, which will stay under our care for the next year. Why did we choose these animals? Because it is one of the symbols of our country, a protected species. They are the largest wild mammals of Europe, synonymous with pride and power. We wanted such animals to become our charges for the coming year. We are happy that we could support the New Zoo and spread the idea of adoption among the local community. We encourage you to visit our bison and send us their photos. We will post all of them on our Facebook page.

Sarantis Group
