## **Polipak wins Forbes diamonds**

Polipak was among the winners of the prestigious group of “Forbes Diamonds” 2020, i.e. the annual ranking of companies that have increased their value most effectively in the last three years. Its results are based on the Swiss company valuation method. The editors of Forbes took into account, among others financial results for 2014-2018, property value, payment history, legal credibility, and no negative legal events. The “Forbes Diamond” title is another confirmation of the dynamic development of Polipak in recent years.
