The Group's First Half of 2016 financial results demonstrate the robustness of the Group's business model, the balance achieved and the success in navigating successfully challenging markets.

The Group's results during H1 2016 were again highlighted by double-digit top line growth across the region and all business units.

Brand-supporting initiatives, the continuous renewal of the brand portfolio as well as the addition of new brands support further brand engagement across the Group's territory and drive growth.

- EBITDA was up by 57.29% to € 14.89 mil. from €9.46 mil. in H1 2015, with an EBITDA margin of 9.32% from 7.15% in H1 2015.

As of the end of H1 2016 the Group maintains a net debt position of €7.12 mil.

The Group's growth so far has outpaced the market across all business units and geographies and is expected to continue growing faster than the industry, based on the efficiency of its business model, the disciplined resource allocation, and its proven ability to mitigate the headwinds brought by economic and political instability in and out of Greece.

As always the Group's efforts are focused on its basic strategic pillars of growth, that is, the renewal and enrichment of its brand portfolio in all the Group's countries and value adding acquisitions able to provide high returns and synergies. The management will continue to execute its long-term plan with strategic investments in high potential, high return areas of the business.

Looking into the second half of 2016 and beyond, while the challenges remain and even though the management is cautious regarding the economic and political developments in the European region, the Group is well positioned, armed with a strong brand portfolio and initiatives that will further increase its market share and able to exploit growth opportunities.

Moreover, the Group's key assets, that is, its leading position in the market, the balance of its brand portfolio, its exporting character, its financial strength and security, the management's agility and the human resources support, will be, as ever, the cornerstones for its future further development.

In view of the Group's performance to date and the outlook for the balance of the year, the management reiterates its expectations for sales growth of 11.2% and earnings per share growth of 15% for the fiscal year of 2016.
